Product-minded Senior UI/UX & Product Designer and Full-Stack Web Developer with 3.5+ years of experience leading end-to-end design and engineering for AI-driven SaaS, Cloud POS, E-commerce, LMS, and multi-tenant platforms. Proven track record in defining 0→1 product roadmaps, design tokens, and scalable component systems across web and mobile surfaces. At **CodeMoly**, spearheaded brand identity, UI/UX architecture, interactive prototypes, and full-stack development across flagship SaaS ecosystems (Bebshadar, MolyEcom, MolyLearn, Lead Sea, blaswa) that drove 1,000+ installs in 15 days and 200k+ organic reach. Advanced Figma specialist (Auto Layout 5.0, variables, micro-interactions) paired with production-ready engineering in Next.js, React, Tailwind CSS, and AI-accelerated workflows.

Work Experience

Lead / Senior UI/UX Designer & Full-Stack Developer · CodeMoly

📍 Dhaka, Bangladesh

December 2023 – Present · Full-time

Core SaaS Ecosystem

- Spearheaded end-to-end Brand Identity, UI/UX Architecture, and Interactive Prototypes for CodeMoly's flagship SaaS product suite, including Bebsadar, MolyEcom, MolyLearn, and Lead Sea.
- Designed and engineered production-grade SaaS web apps and client ecosystems using Next.js, React, Tailwind CSS, and centralized Figma Design Systems.
- Conceived, designed, and developed **blaswa** — a high-throughput WhatsApp bulk messaging automation desktop/web software for high-volume customer communications.
- Scaled Bebsadar (Cloud POS & Multi-Branch Inventory) web and mobile portal to 1,000+ active business installations within 15 days of launch and 200,000+ organic reach.
- Architected scalable tokenized design systems with Auto Layout 5.0, variable modes, and dev-ready annotations, accelerating engineering sprint velocity by ~40%.
- Mentored junior designers, conducted heuristic usability audits, and defended design decisions with executive stakeholders and international clients.

Mid-Level Graphic & UI Designer · CreatiX-IT

📍 Narayanganj, Dhaka

April 2023 – October 2023 · Full-time

- Designed conversion-optimized SaaS landing pages, marketing visual systems, and responsive web portals that increased lead conversion rates by ~25%.
- Formulated centralized brand guidelines, UI kits, and production-ready marketing assets across web, social, and print media.
- Conducted user research, competitor benchmarking, and usability audits to eliminate friction in multi-step conversion funnels.

Freelance UI/UX & Full-Stack Designer · Global Clients

📍 Remote (US, UK, UAE & Global)

June 2022 – April 2023 · Contract / Remote

- Designed and developed bespoke digital products, including the luxury architecture showcase **Asik Rana Portfolio** (asikrana.ae) with fluid transitions and responsive gallery.
- Maintained 100% 5-star ratings across US, UK, and UAE clients for web applications, brand identities, and high-converting landing pages.
- Leveraged AI-assisted workflows (v0, Claude/ChatGPT, Midjourney, Figma Make) to deliver rapid wireframes, functional prototypes, and developer-ready code in record timelines.

Featured SaaS Products & Systems

Bebshadar — Cloud POS & Inventory Cloud POS SaaS bebshadar-0-2.vercel.app ↗ · Overview ↗ ● Brand, UX & Mobile: Complete Brand Identity, UX flows, mobile app UI (iOS/Android), and sub-3s POS checkout workflows. ● Engineering & Scale: Built web portal dashboard, driving 1,000+ installs in 15 days & 200k+ organic reach.	Lead Sea — B2B Lead Intelligence Scraping SaaS lead-sea.vercel.app ↗ ● Full-Stack Ownership: Executed 100% of UI/UX design, interactive Figma prototypes, and full-stack web application development. ● Core Features: Visual query builder, multi-filter search tables, automated scraping pipelines, and CSV/XLS export.
MolyEcom — E-Commerce Automation E-Commerce SaaS codemoly.com/molyecom ↗ ● Brand Design & Prototypes: Centralized brand design system, interactive UI prototypes, and merchant admin consoles. ● Automation UX: Multi-store inventory sync, automated courier API integration (Steadfast, Pathao), and 1-page checkout.	MolyLearn — Interactive LMS EdTech LMS codemoly.com/molylearn ↗ ● Brand Design & UX Research: Student experience research, interactive video classroom prototypes, and instructor dashboards. ● Learning Systems: Distraction-free video players with timestamped notes, progress trackers, quizzes, and certificates.
blaswa — WhatsApp Bulk Messaging Automation Software Communication Automation ● Product Conception, UI & Engineering: Conceived, designed, and developed an automated bulk WhatsApp messaging software for business outreach. ● Designed intuitive campaign management UI with contact list segmentation, dynamic variable injection, intelligent rate limiting, and real-time delivery logs.	Asik Rana & CodeMoly (v3.0) — High-End Web Platforms Full-Stack Web Asik Rana: asikrana.ae ↗ · CodeMoly: code-moly-website-3-0.vercel.app ↗ ● Designed and developed both platforms end-to-end with high-fidelity visual aesthetics, fluid motion choreography, and high-converting lead funnels.

Education

Ranada Prasad Shaha University 2017 – 2021 Bachelor of Science in Electrical & Electronics Engineering (B.Sc. Engg.)	Munshiganj Polytechnic Institute 2012 – 2016 Diploma in Electrical Engineering
