Product-focused Designer & Developer with 6+ years of experience designing and building digital products across SaaS, B2B platforms, e-commerce, POS, LMS, and business websites. Primarily a **UI/UX Designer** who harnesses modern AI tools and vibe coding workflows to independently build and launch full-stack web applications and WordPress platforms across any tech stack—without being a traditional coder. Experienced across the full product lifecycle: from UX research, user flows, wireframing, UI design, design systems, and prototyping to frontend development, backend integration, deployment, and launch. I combine strong visual design, product thinking, and AI vibe-coding skills to turn ideas into functional, market-ready digital products that solve real business problems.

PROFESSIONAL EXPERIENCE

6+ Years Career History

Graphic & UI/UX Designer | Product-focused Designer & Developer • CodeMoly

Dhaka, Bangladesh · Full-time · Dec 2023 – Present

Product Design **SAAS ECOSYSTEM**

- Designed end-to-end UI/UX for CodeMoly's SaaS product ecosystem, including MolyEcom, Bebshadar, and MolyLearn, covering user flows, information architecture, wireframes, responsive UI, prototypes, and design systems.
- Designed complex product experiences for e-commerce automation, POS & inventory management, and learning management workflows, translating business requirements into practical and scalable interfaces.
- Contributed to product branding and visual direction across CodeMoly and its SaaS products, maintaining consistency between product interfaces, brand identity, and marketing communication.

Web & Product Development **AI VIBE CODING & WEB**

- Designed and developed [CodeMoly](#), [Bebshadar](#), [MolyEcom](#), and [MolyLearn](#) websites, taking projects from UX/UI design through functional implementation using AI vibe coding workflows.
- Built selected web experiences using React, Next.js, and WordPress, translating Figma designs into responsive, production-ready websites across modern tech stacks.
- Worked across design and development to bridge the gap between product concepts, UI design, frontend implementation, and deployment, enabling faster iteration from idea to live product.

Brand & Marketing **VISUALS & BRAND GROWTH**

- Created visual branding and marketing assets for CodeMoly and its products, including social media posts, carousels, promotional creatives, campaign visuals, and digital marketing materials.
- Edited product, promotional, and social media videos to support product communication, marketing campaigns, and brand growth.
- Designed marketing content for SaaS products including MolyEcom, Bebshadar, and MolyLearn, maintaining consistent visual communication across digital channels.

Mid-Level Graphic & UI Designer

CreatiX-IT

Apr 2023 – Oct 2023 • Narayanganj, Dhaka

Revamped corporate brand identities, web mockups, and digital marketing design; improved brand consistency and digital conversion across client projects.

Lead Research Automation Tool

SaaS Product | Design + Full-Stack Development

Live Demo ↗

STACK: Next.js 14 • Supabase • Prisma • BullMQ • Railway • Redis • Lead Scraping APIs

PRODUCT AI-assisted lead-discovery tool surfacing verified business leads from Google Maps, LinkedIn, and Reddit; collected **5,000+ free leads** for B2B outreach. Live demo: [lead-sea.vercel.app ↗](#)

ENGINEERED Architected asynchronous scraping pipelines using Redis/BullMQ background workers, real-time campaign dashboard, deduplication logic, and one-click CSV export.

WhatsApp Bulk Messaging Platform

SaaS Product | Design + Full-Stack Development

Desktop & Web System

STACK: React • Vite • Node.js • SQLite • Socket.IO • whatsapp-web.js • Tailwind CSS

DELIVERY Solved anti-ban and delivery-reliability challenges through custom delay throttle logic, variable templating, and session preservation; **20,000+ messages successfully dispatched**.

UX & REALTIME Designed intuitive multi-number manager in Figma; engineered live Socket.IO event streams for real-time delivery status, contact verification, and SQLite campaign analytics.

Facebook Marketing Automation Software

SaaS Product | Design + Full-Stack Development

SaaS Tool

STACK: Next.js • React • Tailwind CSS • Graph API Integration • REST APIs

AUTOMATION Automates Facebook marketing, post publishing, and advertising workflows to streamline multi-page social campaigns for businesses.

DESIGN & CODE Designed comprehensive campaign control center, audience targeting presets, and scheduling UI; turned Figma wireframes into production web interface using AI coding workflows.

Asik Rana (asikrana.ae)

Client Website | Design + Full-Stack Development

Live Website ↗

STACK: Next.js • React • Tailwind CSS • Responsive UI • International Client

UX ARCHITECTURE Designed and developed a trading-focused website for an international client, featuring responsive luxury typography, bespoke layouts, and optimized web performance.

EXECUTION Handled the entire lifecycle from UX wireframing, high-fidelity visual design, to responsive Next.js frontend implementation, smooth animations, and live deployment.

Dedicated2You.com

Client Website | Design + WordPress Development

Live Website ↗

STACK: WordPress • Custom Theme • Responsive Architecture • International Client

BRAND & DESIGN Designed and developed a retirement & financial advice website for an international client, built on WordPress with custom brand aesthetics and clear conversion funnels.

CMS DEPLOYMENT Leveraged AI workflows to rapidly configure WordPress CMS, structure lead-capture forms, customize layouts, and ensure high-speed mobile responsiveness and SEO readiness.

v2.sheaksajibuddin.com

Client Website | Design + WordPress Development

Live Website ↗

STACK: WordPress • SEO Architecture • Responsive Design • Local Client

PORTFOLIO DESIGN Designed and developed an SEO Expert Portfolio website for a local client, built on WordPress with high-impact visual credibility and structured case study presentations.

SEO OPTIMIZATION Implemented conversion-focused hero sections, service packages, schema structure, and responsive mobile optimization using modern AI-assisted WordPress development.

EDUCATION

Academic Background

Ranada Prasad Shaha University

Bachelor of Science in Electrical & Electronic Engineering (EEE)
